Professional Summary

Full Stack Developer with **3.5+ years of professional experience** delivering enterprise web applications across frontend and backend systems. Hands-on experience with **Python, FastAPI, React, Angular, TypeScript, JavaScript, Node.js, REST APIs, MongoDB, and MySQL**. Skilled in building reusable interfaces, backend APIs, authentication, CRUD workflows, data processing, debugging, testing, and end-to-end SDLC practices. Working knowledge of **AI/LLM concepts and prompt engineering**, supported by practical experience with Python, NumPy, Pandas, and FastAPI.

Technical Skills

Languages	Python, JavaScript, TypeScript, SQL
Frontend	React, Angular, RxJS, Responsive Web Design
Backend	Python, FastAPI, Node.js, Express.js, REST APIs
AI / LLM	LLM Fundamentals, Prompt Engineering
Data / Database	Pandas, NumPy, MongoDB, MySQL, Data Processing

Professional Experience

Bassetti ITES Pvt. Ltd.

Jul 2023 – Present

Full Stack Developer

- Deliver enterprise web applications across **5 representative projects**, working with React, Angular, TypeScript, JavaScript, Python, FastAPI, Node.js, REST APIs, and databases.
- Build reusable and responsive frontend components with React and Angular, using RxJS for state management and asynchronous data handling where required.
- Engineer RESTful APIs with **Python/FastAPI and Node.js/Express.js**, implementing validation, authentication, authorization, CRUD operations, and business workflows.
- Manage application data with **MongoDB and MySQL**, including database queries, data processing, and backend business operations.
- Implement Python-based data-processing workflows using **Python, NumPy, and Pandas**, while applying practical knowledge of **AI/LLM concepts and prompt engineering**.

Bassetti ITES Pvt. Ltd.

Sep 2022 – Jun 2023

Developer Intern

- Contributed to enterprise applications using **Angular, JavaScript, TypeScript, Node.js, and REST APIs**.
- Implemented reusable UI components, backend API integrations, feature enhancements, testing, debugging, and issue resolution within Agile development cycles.

Projects

- Azaadi – Role-Based Employee Management System** *Angular, FastAPI, MongoDB*
Built role-based employee-management workflows covering attendance, salary structures, payroll, increment management, and automated payslip generation using Angular and FastAPI REST APIs.
- TxAdministration – Product Administration Platform** *Angular, C#, MySQL*
Enhanced administration functionality for product and organization-level configuration management using Angular, C#, and MySQL-based backend workflows.
- Prodiges – Organization-Based Social Platform** *Angular, C#, MySQL*
Implemented features for an organization-based social platform with LinkedIn-like functionality, including feed posts, calendars, directories, and user interactions.
- Flerts – Financial Alert System** *React, Node.js*
Engineered financial alert and transaction-monitoring features using React and Node.js, integrating REST APIs to support notification-driven workflows.
- SpinCabs – Cab Booking Platform** *React, Android, Node.js, MongoDB*
Implemented cab-booking workflows across React and Android applications, integrating Node.js backend services and MongoDB for application data management.

Education

Gargi Memorial Institute of Technology

Aug 2019 – Jul 2023

Bachelor of Technology (B.Tech.) – Electronics & Communication Engineering

CGPA: 9.10/10.00

Languages: English, Bengali, Hindi — **Focus:** AI/LLM Application Development , Generative AI
